

MINI Laser Marking Machine

FIBER OPTIC COMPACT POWERHOUSE 20/30W

LASER MARKING MACHINE

★ KEY FEATURES

- All-in-One Compact Design**
 - Space-saving integrated structure
 - Flexible operation in various environments
- User-Friendly Operation**
 - Intuitive interface for easy control
 - Built-in wizard for quick setup
- Reliable Performance**
 - Trusted by customers worldwide
 - Stable and dependable operation
- Precision Engineering**
 - Premium components and craftsmanship
 - High-precision marking results
- Flexible Applications**
 - Text, Logos, Serial Numbers
 - Barcodes & QR Codes
 - Suitable for various materials
- High Value**
 - Superior quality at a competitive price
 - Cost-effective laser marking solution

👍 ADVANTAGES

- Compact & Robust Design**
- High Precision & Consistency**
- Easy to Learn & Operate**
- Available in 20W & 30W Models**
- High-Speed Marking Performance**
- Excellent Price-to-Performance Ratio**

FIBER OPTIC COMPACT POWERHOUSE 20/30W SERIES SPECIFICATION / LASER CODING MACHINE

20W
MODEL

Intelligently manage your marking processes, from workshop floors to automated production lines, allowing you to complete multiple tasks with ease

**Limitless Possibilities,
Technological Advantages**

FIBER OPTIC COMPACT POWERHOUSE SERIES SPECIFICATION / HIGH-QUALITY LASER MACHINE LASER CODING MACHINE 20W/30W

◆ MAIN TECHNICAL PARAMETERS OF THE FIBER OPTIC SERIES

Item	Specification	F-20W	F-30W
Overall Machine Features	Machine Material	Sandblasted aluminum + anodized metal painting	
	Laser	Fiber laser generator with a service life of over 100,000 hours	
	Laser Wavelength	1064nm	
	Actual Output Power	≥20W	≥30W
	Marking Speed	≤12000mm/s	
	Main Control	Connected to computer industrial control machine	
	Cooling System	Normal temperature air cooling	
	Minimum Line Width	0.0012mm	
	Repeat Positioning Accuracy	0.003mm	
	Marking Range	110*110mm (Standard)	150*150mm (Minimize ø)
	Positioning Method	Red light indication	
	Markable Character Height	Any number of lines within the marking range	
	Production Line Speed	0~130m/min related to material	
	Multi-language Support	English, Korean, Chinese, Russian, etc.	
Software Introduction	Management Authority	Multi-user management authority	
	Operating System	Windows System	
	Input Mode	Static state	
	Reserved Signal	Foot Switch	
	Data Protection	Power-off data protection function	
Supported Types & Fonts	Typeface	Chinese, English, numbers, traditional Chinese and other standard font libraries	
	File Formats	BMP/DXF/HPGL/JPEG/PLT	
	Bar codes	CODE39, CODE128, CODE126, QR code (optional)	
	Power Supply	Standard External power supply 220V / 50Hz	
Overall Parameters	Power Consumption	≤500W	
	Net Machine Weight	Classic: 10kg, Laser Head: 6.2kg, Total weight after packaging: 16.25kg	
	External Dimensions	Package: 620*410*360mm, 21kg	
Environment	Demand	External operating environment: Dry ≤90%; Non-condensing; Vibration-free
